Don't Miss It.

Adeline Klaber with "Uncle Josh Perkins" at Daly's Theatre, Thursday, Aug. 8. See street parade, Prices 25-35-50c

Mr. and Mrs. A. L. Hogen and family of Manitowish are visiting in the city, guests at the home of Mr. and Mrs. O. T. Hogen.

F. O. Brockhausen of Milwaukee arrived in the city this morning to visit a few days with his friends about town. Brock is looking as natural as ever and reports that he is getting along nicely in the Cream City.

Miss Ella Hasbrouck returned on Monday from a four weeks visit thru the west. She reports a most delightful trip. While at Seattle, Wash., she was a guest of Mrs. Carolyn Smith and Carolyn Briler. While delighted with the scenery and many things of interest in the west, Miss Hasbrouck says that it looked good to her to get back to the green fields of Minnesota and Wisconsin.

Nearly a Serious Accident.

L. E. Phillos, bookkeeper at the Kellogg Bros. lumber yard, was quite seriously hurt last Wednesday evening by being struck on the head by a tackle block which fell from a telephone pole where some men were doing repair work for the Wood County Telephone Co.

It was about six o'clock in the evening and Mr. Phillos was on his way home to supper when the accident occurred. Mr. Phillos was knocked senseless by the blow, and his head badly cut where the block struck him. He was taken to Dr. Hogen's office where the wound was dressed and he has since been able to be about, although he was quite lame from the shock for some time.

HIGHER WATER TO HELP BOATING

Raising of Dam at Biron Will Make a Long Stretch of Water for Boating.

The Consolidated Water Power & Paper Company have commenced the work on their new dam at Biron, and while it will be some little time before the work is completed, when it is done there will be a long stretch of the river above Biron that will be deep enough for small motor boats and fishing craft.

The dam will be raised about 7 feet and this will back the water up for a long distance above Biron and it is probable that small craft can go almost to the dam at Whiting.

During an interview with Geo. W. Mead one day last week that gentleman stated that he considered favorably the plan of putting in some kind of a derrier or roll way at the Biron dam by means of which small motor boats, canoes and row boats could be hoisted over the Biron dam, so that in going up river from this city they could continue on their way without hindrance at Biron.

As things are now located a small boat can be gotten over the dam at Biron by two husky men, but it is no fun even with a light boat, while with a motor boat it is an impossibility without outside assistance and considerable delay and expense. When the dam is raised another seven feet it would make the transfer much more difficult.

As the dam is now located at Biron a small power boat can be run up within a few feet of the dam during a normal stage of water, and if the same conditions exist after the new dam is put in it will be no great expense to put in the proposed apparatus for transferring a boat.

While the Wisconsin river is not an ideal place for motor boating, owing to the rise and fall of the water at different seasons of the year, and the prevalence of rock that stick up from the bottom and occasionally knock a fluke from a propeller, as a picturesque spot it cannot be excelled anywhere, and to one who is a lover of the beautiful in nature, it never ceases to be a wonder and a delight.

Want Reduced Postage.

Milwaukee business men are interesting themselves in the matter of having postage on letters reduced to one cent. Other business men have been asked to add their efforts to bring about the desired result.

With the matter of letter postage is not a very serious one to the man who is not engaged in business, to many of the big firms it would mean quite a saving. Those interested in the matter ask for the reduction on the claim that first class mail matter is paying more than its share of the expenses.

Strayed.

Came to my enclosure on July 5th one red and white heifer, about two years old. Owner can have same by paying damages and proving property. Prentiss Ooon, R. R. 2.

EVEN CY YOUNG CAN LOSE A GAME

Local Ball Players Slip One Over on the Lanky Pitcher From the Point.

Oy Young has been beaten. It was 4 to 1. Grand Rapids did it at the ball park last Sunday. There was nothing to it. The only remarkable thing about it is that we have not turned the trick before.

It came about in the sixth inning when Felch swatted out a home run, putting the ball over the left field fence, bringing in two that were on bases, and coming in himself on a canter. Grand Rapids had scored one in the fifth, which made four, and as the visitors were able to squeeze out only one, it was all our game.

Our boys played an errorless game, while the visitors were credited up with two. Stevens Point got seven hits, but were unable to bunt them in a winning manner, while our boys were only credited with six.

It was a good game of ball and a large number came over from Stevens Point to see it, and nobody complained about the quality of the play. Felch kept up his reputation by making another three bagger later in the game, but was unable to score.

School Census Completed.

The school census in this city has been completed and it shows an increase of 53 over that of last year. Following are the figures:

CENSUS OF 1911.			
Wards	Male	Female	Total
First	180	197	377
Second	180	177	357
Third	95	96	191
Fourth	155	178	333
Fifth	329	325	654
Sixth	161	154	315
Seventh	108	115	223
Eighth	140	99	239
Totals	1188	1162	2350

CENSUS OF 1912.			
Wards	Male	Female	Total
First	190	201	391
Second	160	183	343
Third	74	114	188
Fourth	155	175	330
Fifth	472	488	960
Sixth	168	154	322
Seventh	131	137	268
Eighth	180	101	281
Totals	1200	1198	2398

Campaign Will be Tame.

The consensus of opinion among those interested in the matter is that the coming campaign will be a tame one. In other words, candidates will have to confine themselves more than ever to gun shot methods, a sort of a buttonhole campaign, as it were.

No more blowouts for the boys with beer and cigars and fresh lamb, for the corrupt practices act does not allow such things.

It is probable that no class of men are more pleased with this fact than the candidates themselves. They never liked the proposition at any time and it was a source of expense from which there was no possible escape if a man wanted to be in the game at all. The fact that one side was bound to lose made it all the worse, and many a man who was prevailed upon by his friends to run for office incurred debts that, when he lost out, took years to liquidate, or if he did not pay them, branded him as a deadbeat among his acquaintances.

Will Build a Guard Lock.

At a recent meeting of the stockholders of the Centralia Pulp & Water Power Company it was decided to build a guard lock at the south side to protect their power plant, and work has already been commenced.

The matter of rebuilding the paper mill at that point has not been settled definitely, but it is known that nothing will be done in the matter in the immediate future and it is possible that the mill will not be rebuilt at all.

Closed Season for Dogs.

Pointer or setter dogs may not be used on grounds frequented by prairie chickens or grouse from this week Thursday until the opening of the chicken season. This fact is known to many hunters and for this reason we reprint the following sentence from section 4600a-20, Laws of Wisconsin, (Paragraph 4):

"And it shall be unlawful to run or use a pointer or setter dog or dogs in the fields or upon lands frequented by, or upon which game birds may be found between the first day of August and the tenth day of September, and any dog or dogs so used in violation of this act may be seized, confiscated, or killed."

CATTLE MEN IN ANNUAL SESSION

Guernsey Breeders Hold a Most Successful Meeting at the Home of A. P. Bean.

The Marshfield Guernsey Breeders' Association picnic was a grand success both from a social and educational viewpoint. About 200 enthusiasts gathered at A. P. Bean's farm home in the town of Hansen. A bountiful dinner was served by the ladies. Music was furnished by the Hansen Band.

After dinner Wm. Barhopp called the meeting to order and was opened with singing America, everybody helping. Dr. E. V. Kautsky of Colby gave us a short address on how to get the boys interested and keep them on the farm so they will not think work is a drudgery. Give them some of the best stock and not the scrub kind. The doctor also explained to us how he had saved a very fine pure calf that was born with pneumonia by using stimulants and pure warm air. He told us how he got his first lesson in breeding stock and found that like produces like and get aires with the best of backing. He said that he got his start by working on the farm seven months at \$1.00 per month and saved it all but \$4.00. He also gave his experience as to how cows would vary in taste. One of his cow's milk tasted 6.3 in the morning and only 4.3 in the evening.

Prof. Humphrey was on the list to give a lesson on how to get better stock and more of it. He said that we must be careful in selecting our sires and use nothing but pure bred sires of all kinds of stock. He told us that the man is the first factor, blood and pedigree next. He showed how a man with a grade herd of cattle has a better chance to get a good producing herd than the man with a herd of pure bred for the reason that with grades he is more apt to cull out the poor ones and keep only the best. Prof. Humphrey gave us a good demonstration with Mr. Bean's sire; showed us how to find the good and also the bad points, also on cows. Mr. Bean showed us a few photos of one of his cows with her triplet calves, two heifers he still owns, the bull calf he sold.

Mr. Rowland of Waukesha, who was to be with us, was delayed so he could not be with us until late. He talked on the profit a man can get from the Guernsey and how organizations help in getting better cows. He especially emphasized the benefit derived from farmers organization in all branches. We should not be satisfied until we have the best of everything. He advised us not to get too much land, for 40 acres well worked is better than 80 acres half tilled. He told us how he visited a young farmer that owned 200 acres of land and wanted to buy 75 acres more but had only 35 head of cattle and also spoke of another that had 100 acres and 100 head of cattle. That we gain by one man improving his farm which helps improve all in the neighborhood.

As a windup of our meeting W. H. Ludwig, the Vesper silo man, talked on the mystery of the silo and silage. Three new members were taken in. Dr. Kautsky, Robert Morris and W. H. Ludwig. Great credit is due to Mr. and Mrs. A. P. Bean for the way they opened their home and made everybody welcome. It was also a great pleasure for us from the north end of the county to meet former County Treasurer P. F. Bean. We finally adjourned well satisfied that we had gained knowledge.

Wm. R. Barhopp.

Celebrated Wedding Anniversary. The members of the local G. A. B. Post and the Woman's Relief Corps assembled at the home of Mr. and Mrs. George W. Baker, Sr., on Monday evening to assist Mr. and Mrs. Baker in celebrating their 46th wedding anniversary. The evening was spent in a very pleasant manner. Among those in attendance were the following:

Mr. and Mrs. W. H. Getts, Mr. and Mrs. Guy Getts, Mr. and Mrs. Sam Parker, Mr. and Mrs. Dan Carey, Mr. and Mrs. Louis Young, Mrs. John Slone, Mrs. M. J. Favel, Mrs. Geo. Helzer, Mrs. N. G. Ratelle, Mr. and Mrs. Geo. W. Baker, Jr., Harold and Ralph Getts, Royal and Vilas Baker, and Miss Gladys Ratelle.

Band Concert. The regular weekly band concert will be held on Thursday evening this week instead of Wednesday. Last side.

For Sale. Two homes for sale cheap on account of owner leaving the city. F. G. Gilkey.

The best of motion pictures every Saturday and Sunday at Daly's Theatre

WOMAN SHOT BY HER BROTHER.

Mrs. Roy Waters Accidentally Killed by the Discharge of A .22 Rifle.

Mrs. Roy Waters was killed almost instantly on Tuesday morning about 10:30 o'clock by the accidental discharge of a .22 caliber rifle in the hands of her brother, a young man about 18 years of age.

The young man was sitting in the same room with his sister and was taking the shells from his rifle, which was a repeater, and while engaged in this the woman walked to the door. As she passed in front of the rifle it was discharged, the bullet striking her just under the left arm. She fell to the floor and expired almost instantly, and nothing could be done for her although help was summoned at once.

The authorities were notified of the tragedy and Justice Brown accompanied by Under Sheriff Welch went to the scene of the accident for the purpose of holding an inquest if necessary, but after questioning the boy decided that this was unnecessary, as there was no doubt in anybody's mind but what it was an accident.

The deceased was 33 years of age and had been married about a year, and is survived by her husband, having no children. She was the daughter of Mr. and Mrs. Fred Davis who live on the Sigel marsh just west of the marsh in the city limits, the two families living there right close together. It was a most sad affair, and the husband and relatives have the sympathy of the community in their affliction.

The funeral will be held on Thursday afternoon at 2 o'clock from the home on the west side.

Jacob Winger.

Jacob Winger, one of the old residents of the city of Grand Rapids, and one of our most respected citizens, died at his home on Fourth street on Monday morning at 8:30 o'clock after an illness of only about a day, death being caused by pneumonia.

Mr. Winger had been enjoying his usual good health, and was at work on Saturday, he being employed by the St. Paul Railway Company as a horse bridge carpenter. He returned to the city on the 9:35 train and when on his way home tripped on the sidewalk and was thrown to the ground quite heavily. He was shaken up considerably by the fall, but after he had been at home for a short time stated that he was feeling all right again, and went to bed apparently all right.

He was taken quite violently ill that night, and notwithstanding the fact that a physician was summoned and everything possible done for him he continued to grow worse until he passed away about three o'clock Monday morning.

As the cause of death was more or less uncertain a post mortem was held and it was found that he had been suffering from pneumonia.

There was probably no man in town who was more universally respected than was Mr. Winger. For thirty-five years he has been in the employ of the St. Paul company as bridge carpenter, being one of their most faithful and reliable employees. His work kept him away from the city most of the time, so that he took no part in the public affairs of the city, but he has a large circle of friends here who will truly mourn his untimely demise and who extend to the sorrowing family their heartfelt sympathy.

Mr. Winger was 66 years of age and is survived by his wife and six children, three boys and three girls, Nettie, Della and Eola and Oscar, Carl and Henry. Oscar and Carl arrived in the city from Chicago on Monday, and Henry, who is a resident of Seattle, Wash., is expected here on Friday.

The funeral services will be held on Saturday afternoon at two o'clock from the family home on Fourth Street.

Ernest Buss. Ernest, the 11 year old son of Mr. and Mrs. Fred C. Buss of the town of Hansen, met with an accidental death on Friday afternoon of last week, while engaged in cultivating corn in the field.

The little fellow was found by his mother lying on the ground in an unconscious condition, and he died soon after being taken to the house without regaining consciousness.

From the appearance of things it was evident that one of the legs became unhitched and while the boy was trying to replace it the horse kicked him on the side of the head, breaking his neck.

The funeral was held on Monday afternoon from the Lutheran church at Vesper, Rev. Pantz officiating.

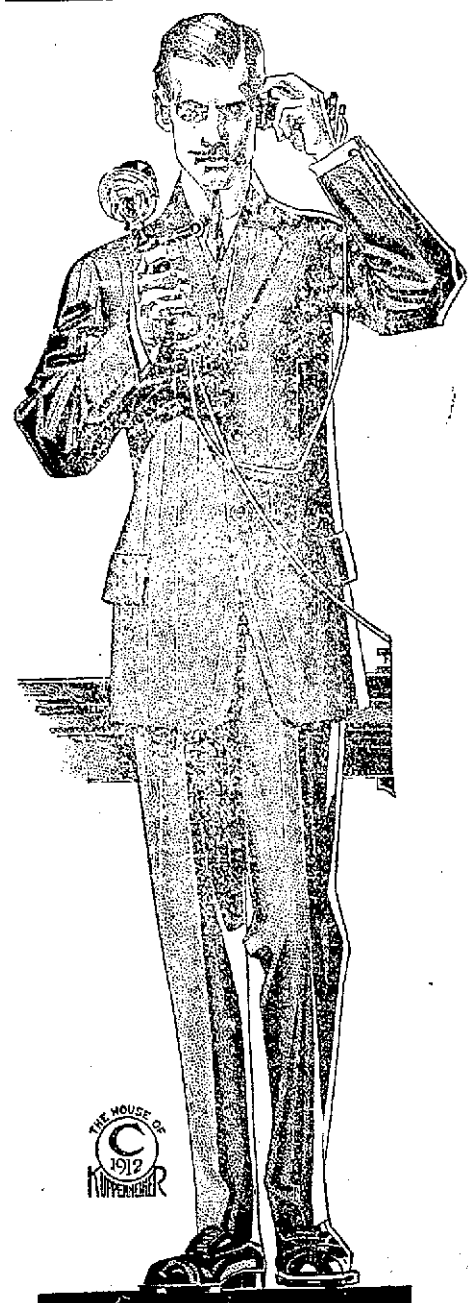

Derham-Pattie. The announcement of the marriage of Katherine Derham to Harry P. Pattie was received in this city last week, they having been married at Montello on August 1st at the home of the bride's mother. Both of the young people are well known in this city, having taught in our public schools and have many friends here to wish them a happy journey thru life.

Juvenile Band Meeting. The regular meeting of the juvenile band will be held on Wednesday evening this week instead of Thursday. Members will please take notice of the change.

Miss Nellie Cowway of Minneapolis is visiting relatives in the city for a few days.

Clothing Sale!

At Kruger & Warner Company's

This is a Closing Sale of High Class Clothes at CUT PRICES in order to dispose of all odd lots of Suits of 1912 models. We don't want to carry over suits from one season to another, and these prices will surely interest everyone that wants to Save Money.

Questions and Answers

Below we endeavor to answer some of the questions regarding interest on deposits in our Savings Department.

Q. When is interest paid?

A. Interest at the rate of 3 per cent per annum is computed on January 1st and July 1st. All interest not withdrawn will be added to the principal and draw interest the same as the original deposit.

Q. Does money deposited between the interest days begin drawing interest at once?

A. Yes. Interest is credited on the first interest day after the money has been in the bank three months, for the full time, in even months.

Q. Must the book be taken to the bank on interest days?

A. No. The interest due you will be credited on the books of the bank each interest day, and will be entered in your book at any time you bring it to the bank.

Q. Can a part of a deposit be withdrawn before the interest day without losing the interest on the balance which remains?

A. Yes. Please ask us about anything not fully understood.

First National Bank, Grand Rapids, Wis.

Deposits made on or before August 1st will draw interest from August 1st.

LOCAL ITEMS

John Georges was a business visitor in Marshfield on Monday.

Mrs. O. A. Boorman and children are visiting in Madison this week.

Chas. Natwick visited with friends in Chicago several days the past week.

Miss Isabelle Batelle of Green Bay is spending a week in the city visiting with relatives.

Mr. and Mrs. Frank Jagodich of New London visited at the Ben Hansen home on Sunday.

FOR SALE—Registered Quernsoy bull, W. E. Merriok, R. R. 5, Appleton.

Mrs. Chas. Reed and children returned on Monday from a six weeks visit with relatives in Iowa.

L. Starks of Chicago, known as the potato king, was in the city on Friday looking after his interests.

Atty. J. Jeffrey and Tony Peenboom were in Stevens Point on Friday to attend Gollmar Bros. circus.

The rules regarding interest on savings deposits are explained in this weeks ad of the First National Bank.

Mr. and Mrs. Geo. T. Sherman and Mrs. Annie Sherman, agent, are this week in Sparta visiting with relatives.

Chas. Smith spent Saturday at Marshfield and Greenwood looking after business for the Grand Rapids Dyeing Co.

WANTED—A place for a boy to work for all or part board and go to school, Inquire of Mrs. E. L. Holli day on N. Second Street.—St.

Mrs. Julian Welch spent several days in Neenah the past week visiting with relatives. She was accompanied home by her daughter, Verma, who had been visiting there for several weeks.

The baseball association at Merrill dissolved last week, there not being sufficient patronage to keep up the team. As the association was out of debt they decided to quit while their credit was good.

The F. MacKinnon Mfg. Co., having purchased the latest improved wagon tire sizer, are now in a position to reset wagon tires at any time. Times when you wait.—St.

Russell Hansen, who has been associated with E. F. Nelson the past summer in contracting, has severed his connection with the firm and has again accepted his former position as draftsman in the office of L. A. DuGuere.

Mrs. Oscar Bandelin and children of Sand Point, Idaho, are expected to arrive in the city this week for a visit with relatives. Mr. Bandelin will join his family later and visit several weeks with his mother, Mrs. A. Bandelin, before returning home.

The Consolidated people have purchased the gasoline launch formerly belonging to George Huntington. The boat has been put in the pond above the dam where it will be used for samples across the river during the construction work that is being done there.

FOR SALE—6 room house on 10th Street South, two corner lots, Good cellar, Waterworks. Will be sold cheap if taken at once as owner wants to leave city. Inquire of G. C. Neiman, 320 10th Street.—Atty.

Chas. John medicine is a poor investment. Remember Barker's is guaranteed. It will strengthen and build up a weak and run down system. It will cure head aches, rheumatism, colds and rheumatism. For sale by Johnson & Hill Co.

A man by the name of Eugene Sparks aged 68 years and Miss Mary Swartout aged 19 years, both of Grand Rapids, were married at this place last week. Mary is no doubt an ambitious little girl but she will find it difficult to keep the fire of love burning with that old bundle of sticks—Marshall Herald.

The cool and cloudy weather of the past week has not been good for the crops in this locality, and will have a tendency to delay the ripening of all late products. During a conversation with one of our local farmers last week he expressed it as his opinion that very little corn in this locality would ripen, owing partly to the fact that much of it was planted late, and partly to the cool weather that has prevailed right while it should have been the hottest.

TWO BUGGIES FOR SALE—Two two seater buggies for sale, one a two seater carriage with rubber tires and one a single seater buggy with steel tires. Both of these buggies are second hand but in very good condition. F. MacKinnon, 320 10th Ave.—St.

Mr. and Mrs. A. H. Syllow sold their 100 acre farm in the village of Port Edwards last week to Martin Longren of Chicago, who took possession of the place at once. The deal was made thru the agency of Mrs. E. L. Nekocis and the consideration was \$5,000, stock and machinery included. Mr. and Mrs. Syllow left on Friday for Columbus where they expect to locate.

The board of review, consisting of Mayor J. C. Cohen, Geo. E. Hansen, M. G. Gorman, W. E. Hickey, F. E. Hamley and E. G. Koehnman met this week to check over the assessment figures, and after they have completed their labors the assessment roll will be on file at the city clerk's office, where it can be examined by anybody interested. The board of review will meet again on the 18th instant to hear any objections to the figures.

Oran, Johnston, representing the Milwaukee Journal, was in the city on Monday looking after the political situation in Wood County. Mr. Johnston has written several "Gossies" in the state and the state while for the time being the indications are that the state will be won by the coming election. This fall some of the republicans are strong in the state and the indications there are no different from other places. Many of the republicans have made the statement that they are going to support Wilson regardless of who else may run for the office.

Mr. and Mrs. W. J. Conway spent Sunday in Waupaca.

Atty. O. E. Brainerd visited business in Milwaukee today.

Miss Marie Meyer has returned from a two weeks visit in Green Bay.

Mr. and Mrs. Ed. Bassett visited with relatives in Stevens Point on Sunday.

Miss Mabel Rickman is spending a week in Milwaukee visiting with friends.

Mrs. and Mrs. H. S. Youker of Oshkosh are guests at the home of Mrs. G. R. Gardner.

Mr. and Mrs. Guy Wood of Eau Claire are visiting at the F. J. Wood home for several days.

Mrs. Bramham of Fargo, N. D. is visiting at the home of her parents, Mr. and Mrs. E. E. Nash.

Mrs. Sam Church and daughter Lucille left on Saturday for a visit at the Guy Dutcher home at Oshkosh.

Mrs. Peter Morris of Jeanerette, La. is in the city a guest at the home of Mr. and Mrs. Louis Reichel.

Atty. Theo. W. Hrazean and wife are expected to arrive home this week from their western trip.

Tom Lazamie returned the past week from Nebraska where he has been employed on a dredge for several months.

Misses Clara Kopet and Irene Binney left on Saturday for a visit at the Wm. Ackerman home in Minneapolis.

J. E. Farley is spending several days in Milwaukee visiting with his parents and looking after some business matters.

Chas. Loebenstein, who is employed as a pharmacist in Chicago, is spending a short vacation in the city visiting with his parents.

Charles F. Kruger and A. C. Otto left on Monday to make a lake trip to the straits of Mackinac and other points of interest.

Henry Timm departed this week for Montana, where he will spend some time looking after the interests of the Walking Dredge Mining Co.

Mrs. Peter Diederich spent Sunday in Waupun with her husband who is employed there in repairing one of the dams damaged by the late flood.

Robert Morris of Arpin, the republican nominee for member of assembly, was in the city on Tuesday looking after some business matters.

Miss Olga Schreiber, who has been employed as trimmer in Minneapolis the past two seasons, arrived home on Monday for an extended visit with her mother.

Mr. and Mrs. Wm. Scott of Port Arthur, Ontario, have been in the city the past week visiting with friends. They made the trip here by auto.

The following articles of incorporation were filed at Madison, July 26: Max Cohen Bros., (Inc.) Seven Point capital, \$100,000, incorporators, Max Cohen, J. A. Cohen, N. Cohen, M. Isenberg.

Miss E. P. Beers of Knox, Ind., principal of the high school at Indiana, arrived in the city today for an extended visit with her sister, Mrs. Lee B. Margrey, who lives in the town of Saratoga.

The Woman's Foreign Missionary Society of the Congregational Church will meet on Wednesday afternoon, Aug. 14th with Mrs. G. R. Gardner.

Mrs. Wm. Crawford of Mazomania will be present. A large attendance is desired.

Mr. and Mrs. M. O. Lind returned to their home at Hillsboro on Sunday after a visit of several days at the John Schumacher home. Mr. and Mrs. Lind had been visiting in the southern part of the state and were making the trip by auto.

J. S. Thompson is having a gasoline launch built at the box factory. The craft is 17 feet long with a beam of 6 feet and is equipped with a 22 horsepower gasoline engine. It will be ready to run within a week or so. Otto Krimm is doing the work on the boat.

John Hammer, who has been located at Baraboo for some time past, was in the city the fore part of the week visiting his parents. John's company is the Hammer Lumber Co. and has purchased a newspaper plant at Freedom, and will the two of them will publish the paper in the future.

John Franco, superintendent at the south side paper mill, expects to leave Saturday for an extended visit at his home in Norwich, Conn. Mr. Franco has been superintendent at the south side mill for twenty-one years ever since the plant was built and during all these years has enjoyed but very few vacations.

The design of the five cent piece will be changed in the not very distant future, as the present design does not meet with the approval of the Treasury Department. Secretary MacVeagh has decided to replace the Goddess of Liberty on the face of the coin with a Buffalo, and the reverse side of the nickel will have the head of an Indian.

Attorney George L. Williams returned last week from the River Falls, Minn., where he and Mrs. Williams were visiting their daughter, Mrs. A. M. Arpin. Mr. Williams remained at the River Falls to attend her visit for some time. While away Mr. Williams put in a part of the time fishing and enjoying some pretty good catches.

Good farms for sale. Have a nice place of about 100 acres, near of N. N. Pomeroyville.—St.

Mr. and Mrs. W. E. Lynn have purchased the farm at Freedom, Wis., where they intend to go to farming. Mr. and Mrs. Lynn have been farming in the city who will be interested in the new home.

Mr. and Mrs. F. E. Eberhardt visited in Green Bay on Sunday.

Miss Nellie Kling, and her mother and Mrs. Ed. Sator spent Sunday in Waupaca.

Misses Helen and Anna Bronkalla are spending a week in Tonnawake visiting with friends.

Mrs. O. W. Persohn is spending two weeks in Green Bay and Appleton visiting with relatives.

Mrs. Fred Logan and daughter Marjorie of Tonnawake are visiting at the A. T. Chambers home this week.

Frank and Frank Peterson of Chicago on Saturday after a visit of several weeks in the city with their parents.

Miss Margaret Stenham and Mary Schaeffer are spending a week in Minneapolis, visiting with friends and relatives.

Fred Pitts of Randolph is in the city on Monday and while there favored the Tribune office with a pleasant call.

The new postoffice building at Stevens Point is now being used and is quite an elaborate affair, costing something over \$50,000.

Mrs. W. G. Merrill returned on Saturday from Ashland and Superior, where she had spent a couple of weeks visiting. She reports a very pleasant trip.

Miss Rena Phillips has resigned her position at the Johnson & Hill Co. store and will leave in a short time for Milwaukee to attend normal school.

Miss Emma Sprick has resigned her position at the Johnson & Hill Co. store and will spend several weeks visiting with her parents in the town of Schick.

Mrs. N. G. Ballew and daughter Gladys and son Fred, left on Sunday for a visit at the home of Mrs. Geo. W. Baker, Sr.

Mr. and Mrs. Louis Hansen, who spent their home on Grand Avenue, left on Monday for Kenosha where they will spend the next week.

Lee B. Margrey, of the town of Saratoga was in the city Monday on business. Mr. Margrey reports that the crops never looked better, down his way than they do this year.

Olarence Hayward, electrical at the Consolidated plant, expects to leave this week for Michigan where he will spend a week or two days visiting with friends and relatives. He will make the trip in his Buick Roadster.

Dr. Geo. Otto arrived in the city on Monday from Springfield, Mo., where he has been practicing his profession since May. The doctor is well pleased with his location and expects to move his family there the latter part of the month.

The Green Bay & Western resumed traffic over that line between this city and Green Bay on Wednesday. About a mile and a half of their line was washed out west of Long Point and in some places to a depth of five or six feet. It is reported that the loss will amount to about \$5,000.

W. R. Ryan, who has been spending a few weeks with his parents, Dr. and Mrs. C. A. Boorman, has received an appointment from the United States Fishery Bureau, and left Friday for Montana, Idaho, Oregon and California. His brother Edie accompanied him.

Libra Report.

The annual meeting of the Board of Directors of the T. E. Scott Free Public Library was held in the library rooms July 26, 1914.

The report of the Treasurer, Mr. Witter, was read and accepted. Summary follows:

July 10, 1914, balance forward, \$1,200.00

July 11, 1914, received from T. E. Scott, \$1,000.00

July 12, 1914, received from T. E. Scott, \$1,000.00

July 13, 1914, received from T. E. Scott, \$1,000.00

July 14, 1914, received from T. E. Scott, \$1,000.00

July 15, 1914, received from T. E. Scott, \$1,000.00

July 16, 1914, received from T. E. Scott, \$1,000.00

July 17, 1914, received from T. E. Scott, \$1,000.00

July 18, 1914, received from T. E. Scott, \$1,000.00

July 19, 1914, received from T. E. Scott, \$1,000.00

July 20, 1914, received from T. E. Scott, \$1,000.00

July 21, 1914, received from T. E. Scott, \$1,000.00

July 22, 1914, received from T. E. Scott, \$1,000.00

July 23, 1914, received from T. E. Scott, \$1,000.00

July 24, 1914, received from T. E. Scott, \$1,000.00

July 25, 1914, received from T. E. Scott, \$1,000.00

July 26, 1914, received from T. E. Scott, \$1,000.00

July 27, 1914, received from T. E. Scott, \$1,000.00

July 28, 1914, received from T. E. Scott, \$1,000.00

July 29, 1914, received from T. E. Scott, \$1,000.00

July 30, 1914, received from T. E. Scott, \$1,000.00

July 31, 1914, received from T. E. Scott, \$1,000.00

August 1, 1914, received from T. E. Scott, \$1,000.00

August 2, 1914, received from T. E. Scott, \$1,000.00

August 3, 1914, received from T. E. Scott, \$1,000.00

August 4, 1914, received from T. E. Scott, \$1,000.00

August 5, 1914, received from T. E. Scott, \$1,000.00

Mrs. Henry Knoll spent Sunday in Green Bay.

Mr. and Mrs. T. Reed of Neenah were guests at the Will Kellogg home over Sunday.

Misses Esther Pavlic and Henrietta Nash visited over Sunday at the W. Pavlic home in Mosinee.

Forster, Holberg, and Arthur, Gash purchased John Bell Jr. child interest in the J. O. Bell Dredging Co. on Monday.

W. M. Taylor, who has spent the past two weeks in the city looking after his real estate interests, left on Tuesday for Chippewa Falls.

Mrs. Chambers of Canada, who has been a guest at the home of her sons A. L. and W. H. Chambers the past three weeks, leaves for her home tomorrow.

Chief of Police James Gibson left this morning for Milwaukee where he will spend several days attending the annual state convention of Chief of Police.

NOTES From MEADOWBROOK FARM

By William Pitt

Grain raising robs the soil.

Never overfed an idle horse.

Filthy houses encourage vermin.

Keep the old and young pigs separate.

Kerosene is an excellent remedy for scaly leg.

Better too much working of butter than not enough.

The silo is the cheapest farm building we can erect.

It requires a keen sight to detect signs of falling pasture.

It is absolutely necessary to keep your fertility on your farm.

Wheat and oats make one of the best general diets for fowls.

In mixed farming the income from the dairy is the most reliable.

Efficiency in directing the power of the horse means a great deal.

Cultivate vegetables and flowers when the weather is hot and the soil dry.

It is not uncommon for a Bermuda Lily grower to plant 15,000 bulbs at one time.

An old boot-leg makes an effective device for keeping bottles off horses' noses.

The horse cannot rest while fighting flies. Better shade or screen the barn windows.

For aphids on sweet peas, use insect powder or tobacco dust, applying with a small bellows.

To secure a good brood sow, an even development is required from pig brood to full maturity.

Hay stacked in the open loses 20 per cent. of its value by spoiling on the sides and bottom.

Five or six pounds of corn are usually required to produce a pound of pork in dry-lot feeding.

As soon as the corn is up, or even before, go over the field with a weed or smoothing harrow.

Some gardeners make the mistake of laying up such crops as celery, potatoes and tomatoes too soon.

Celery delights in a low, rich, heavy, moist soil and is usually grown upon the same land year after year.

It does not pay to devote high-priced land for long periods to pasturage and the production of hay.

Time to get the mower in shape for the hay season which is so rapidly approaching. Sharpen up the knives.

Don't push the fat horse on hot days either to the fields or on road. Overworked he loses half his value.

Prime fat lambs cannot be produced by alternate grass and grain. They must be pushed to lay on fat from start to finish.

The little chicks do best on corn bread made of soft milk, soda and cracked corn. They should be fed on something clean.

Unlike other poultry, the turkey has been thoroughly domesticated, but has remained practically a wild bird in its requirements.

Fence posts of wood that last only four or five years can be made to last 20 years by standing two hours in a tank of boiling creosote.

The large tomato worms can be destroyed quickest by hand picking. They can be easily killed by throwing with force to the ground.

Insect pests that destroy or injure the fruit crop may be controlled in a large measure with timely applications of the various spray mixtures.

Except in unusual cases of rush work, the teams should cease work in time to cool off before the dampness and falling temperature of evening.

The small farmer cannot afford to go without fresh meat, and he can cheaply produce this by keeping a brood sows and her pigs in a little pasture back of the barn.

A sheep is the most nervous animal on the farm, and gets into low condition quickly and recovers slowly. Therefore they must be handled gently and kept in quiet, clean surroundings.

There will be far more profit in the hog business when farmers breed and feed so as to make a pound or more growth per day, and turn out prime fat hams at seven or eight months of age.

An old stagnant pond is no place for a cow to slake her thirst. She is liable to drink typhoid germs and other harmful things from the pond. Therefore it is to the benefit of the farmer to have a fresh stream or a new birth of joy in life.

There is many a dairy farmer who is working hard to feed 20 cows when 10 of them would give him just as much milk and possibly more profit. The feeding association is the index that points to prosperity along this line.

Goats are very little trouble if given plenty of range, plenty of water and green feed. The little birds will make rapid growth on water, grass and a little corn. For the first few days the goats should be fed nothing but grass and water.

There is many a dairy farmer who is working hard to feed 20 cows when 10 of them would give him just as much milk and possibly more profit. The feeding association is the index that points to prosperity along this line.

The silo makes feed cheap.

Keep only thoroughbred stock.

A dibble is a handy garden tool.

Sort eggs according to size and color.

Curry the filth from the cow's coat before milking.

Late cabbage is a good crop to follow early potatoes.

Let milk mixings pass before using a fresh cow's milk.

Cabbage is one of the very best vegetables to feed to poultry.

High quality of cream can be produced from clean, pure milk.

Better use is made of ground than of whole grain by the dairy cows.

Do not allow the stall where the cow must stand or lie to get filthy.

Comfortable shelter goes a long way towards making dairymaking pay.

Never offer a poor pound of butter for sale; rather feed it to the pigs.

Silage and alfalfa combined make the foundation for the best dairy ration.

Woven wire fence is being bought by the mile instead of by the rod now.

The coming of the silo is developing some new high records for high-priced beef.

The calf should have plenty of water to drink and it should always be clean and pure.

Milk is one of the by-products of the dairy farmer and it represents a decided profit.

Many practical hog raisers are now using artificial wallows, built of either cement or lumber.

If winter dairymaking is to be the most profitable it must be planned for definitely in advance.

Any man who will strike a horse in the head should never be allowed to touch one again.

Keep the laying hens working. To do this feed them at daybreak and just before sundown.

Hogs follow the rows and tramp down less of the rape if it is drilled instead of broadcasted.

If you want a lasting cement watered down it hardens at once and water does not affect it.

The poorer the cream the faster should be the speed of the churn slower where cream is rich.

A man cannot work on boiled turnips alone; neither can a horse work on a diet of straw and fodder.

Shelters separate from the ones provided for the old fowls should be constructed for the use of the chicks.

Fine gravel is not the proper grit for poultry. They want a sharp material with which to grind their food.

The best location for the warm weather chicks is in the orchard, and the trees also protect them from storms.

Potage crops added to the grain ration cut the cost of pork making 20 to 30 per cent., says F. G. King, Purdue station.

On an average Great Britain yields 30 bushels of wheat to the acre; New South Wales, 15; the United States, 12; and Russia, 8.

Young fruit trees that were planted in the autumn of last year, or in the spring of this year, should be examined carefully.

Cowpeas sown in corn and the entire crop pastured down by hogs gives one of the very best returns that can be secured from farm land.

A few trees in the poultry yard are to be desired at this season, but if the yard is devoid of trees it is easy to arrange for artificial shade.

Breeding stock should never be bred from a litter of a vicious old brood sow which is always restless and chasing about the pasture.

Only about one grape seedling in 100 is worth further testing. A 1 to 100 shot offers enough chance to make it interesting to grape enthusiasts.

Do not allow the stall where the cow has to stand or lie to get filthy. It is not only uncomfortable for the cow, but unhealthy for her and the family that drinks her milk.

Never let young chickens perch up on the breastbone can endure the strain, as crooked breastbone decreases a fowl's market as well as breeding value considerably.

In swine raising, the capital investment is small compared with other live stock, the returns are quick and the hog assimilates most of the food he consumes, than almost any other animal.

The first two days of a chick's life should be spent in brooding and no feed is required until they are at least 10 hours old. Nature has provided for a chick's first feed and all they need is quiet brooding.

With brood sows, the necessary requirements for best results are: a variety of food and plenty of exercise. If the sire is half the herd, the sow water she will drink in large quantities and be healthy.

The successful swine grower studies the form and the general make-up of his stock, thus getting a clear conception of what constitutes a clean, strong, money-making porker, and then selects and breeds to that ideal.

Spray twice for peaches—first when the buds are about half open, with arsenic of lead, and the second spraying about 10 days later with the self-boiled lime-sulphur and arsenic of lead.
